GENERAL SECTION

The General Section applies to all Sub-Fund of the Fund. The specific features of each Sub-Fund are set forth in its Sub Fund Appendices.

1.2 Description of the Fund

SWAN SICAV-SIF (the “**Fund**”) is an open-ended investment company with variable capital (a “société d’investissement à capital variable” or “**SICAV**”), organised as a public limited company (“société anonyme”) incorporated under Luxembourg law.

The Fund was incorporated by notarised deed on 22 February 2013 and is governed by the Law of 13th February 2007 on Specialised Investment Funds (“**SIF**”) , as amended or supplemented from time to time, and recently by the law of 26 March 2012 amending the Luxembourg law of 13 February 2007 on specialised investment funds officially entered into force on 1 April 2012 after having been adopted by the Luxembourg Parliament on 6 March 2012 (the “**SIF Law**”) and to the circular letter 07/309 of 3 August 2007 issued by the Luxembourg supervisory authority, the Commission de Surveillance du Secteur Financier (the “**CSSF**”) in relation to risk spreading in the context of SIF’s (the “**Circular 07/309**”).

The Articles are published in the “Mémorial C, Recueil des Sociétés et Associations” (the “**Mémorial**”) N. 972 of 24 April 2013, R.C.S. Luxembourg B 175600, and have been filed with the Luxembourg Register of Commerce.

The Fund qualifies as alternative investment fund («AIF») in accordance with the SIF Law and the law of 12 July 2013 on alternative investment fund managers. *It is enrolled in the Official list of Specialised Investment Funds kept by the Luxembourg Supervisory Authority on the financial sector, the Commission de Surveillance du Secteur Financier (the “CSSF”) and is subject to the supervision of such Authority in accordance with the SIF Law.*

However, such registration does not imply a positive assessment by the CSSF of the contents of the OFFERING MEMORANDUM or of the quality of the shares (the “Shares”) offered for sale. Any representation to the contrary is unauthorized and unlawful.

As of the date of the OFFERING MEMORANDUM, the Fund has appointed Pharus Management Lux S.A. in accordance with the determinations undertaken under 2.2. of this OFFERING MEMORANDUM as its external manager pursuant to the Luxembourg law dated 12 July 2013 on alternative investment fund managers (the “**AIFM Law**”).

Umbrella structure – Sub-Funds and Classes

The Fund is an investment company with multiple sub-funds (the “**Sub-Funds**”, each a “**Sub-Fund**”) which permits the offer of shares (the “**Shares**”) on the basis of the information contained in the present OFFERING MEMORANDUM as well as in the documents described herein.

The Fund will have the possibility to create additional Sub-Funds, in accordance with the provisions of the SIF Law and of the Articles of Association of the Fund (the “**Articles**”).

Each Sub-Fund is treated as a separate entity and operates independently, each portfolio of Investments being invested for the exclusive benefit of the relevant Sub-Fund. A purchase of Shares relating to a particular Sub-Fund does not give the holder of these Shares any rights with respect to another Sub-Fund.

Within a Sub-Fund, the Board of Directors of the Fund may decide to issue one or more Classes the Investments of which will be commonly invested but subject to different fee structures, distribution, marketing targets, currency or other specific features as further detailed in the relevant Special Section. A separate Net Asset Value per Share, which may differ as a consequence of these variable factors, will be calculated for each Class.

The Board of Directors may issue an unlimited number of Shares in each Sub-Fund and in each Class. The Board of Directors may furthermore decide, at any time, to create additional Sub-Fund and Classes whose features may differ from the existing Sub-Fund and Classes. Upon creation of an additional Sub-Fund or Class, the OFFERING MEMORANDUM will be updated and, if necessary, supplemented by an additional Special Section.

Shares are exclusively reserved for subscription by Well-Informed Investors. Investors should note that some Sub-Funds or Classes may not be available to all Well-Informed Investors. In addition, Investors should note that the Board of Directors reserves the right to reject (in whole or in part) any Subscription Form in its absolute discretion.

Side Pockets

Subject to the prior approval of the CSSF, the Board of Directors may decide to designate one or more specified Investments that (i) lack a readily assessable market value, (ii) are hard to value and/or (iii) are illiquid, as Side Pocket Investments.

Subject to the approval of the CSSF and after the Shareholders have been duly informed, the Board of Directors is entitled to compulsorily convert on a pro rata basis a part of the outstanding Shares of each Classes (if any) of the relevant Sub-fund into the SP Class, which has been newly formed by the Board of Directors within the relevant Sub-Fund. The SP Class will have an initial Net Asset Value equal to the fair value (which may be the cost) of such Side Pocket Investments net of any costs including deferred fees attributable to that SP Class.

The Net Asset Value of the Side Pocket Investments shall in principle not exceed (at the moment of the creation of the SP Class) 30% of the Net Asset Value of the relevant Sub-Fund.

Any such decision will be taken by the Board of Directors with due care and in good faith in the best interest of the Shareholders. The creation of a side pockets is designed to:

- i. protect redeeming Shareholders from being paid an amount in respect of these illiquid or hard to value investments that may be less than their ultimateralisation value;
- ii. (protect the non-redeeming Shareholders against the disposal of part or all of the most liquid investments in order to satisfy the then outstanding redemption requests;
- iii. protect new investors by ensuring that they are not exposed to these Side Pocket Investments when subscribing for new Shares in the Sub-Fund; or

- iv. avoid a suspension of the calculation of the Net Asset Value (and of subscriptions and redemptions) on the basis of Section 6.2 of this General Section affecting all the Shareholders in the relevant Sub-Fund.
- v. The Shares of the SP Class will be treated as if redeemed as of the date of the compulsory conversion of the relevant Shares into that SP Class. The Shares of the SP Class will further entitle their holders to participate on a pro rata basis in the relevant Side Pocket Investments. The Shares of the SP Class are not redeemable upon request by a relevant Shareholder.
- vi. The Board of Directors shall have as its priority objective to realize the Side Pocket Investments in the best interest of the relevant Shareholders which depends, inter alia, on the market conditions. The Side Pocket Investments should be realized within a reasonable timeframe which shall in principle not exceed three years starting from the day of the compulsory conversion.

The Side Pockets Investments will be subject to a separate accounting and the value and liabilities allocated to the Side Pocket Investments shall be separate from other Classes. For the purpose of calculating the Net Asset Value of the SP Class, the Side Pocket Investments will either be valued at the fair value estimated in good faith and with the prudent care of the Board of Directors or remained booked at the value of the relevant Side Pocket Investments when converted into the SP Class.

Given the expected illiquid nature of Side Pocket Investments, the Net Asset Value, if any, of the Shares of the SP Class cannot be determined with the same degree of certainty as it would be the case in respect of the Shares of other Classes.

No fees(including the Management Fee or a performance fee, if any) will be levied on the net assets of the SP Class.

The Fund is reserved for well-informed investors within the meaning of article 2 of the SIF Law who on the basis of the OFFERING MEMORANDUM, have made their own assessment of the conditions of their participation in the Fund. Accordingly, it is the responsibility of participating investors to determine whether investment in the Fund and the rights afforded to them are suitable and whether they can perform the obligations placed on them.

No person is authorised to give any information or to make any representations other than those contained in the OFFERING MEMORANDUM and in the documents referred to therein.

The registration of the Fund as a SIF does not require any Luxembourg authority to approve or disapprove either the adequacy or accuracy of the OFFERING MEMORANDUM or the assets held in the Fund. Any representations to the contrary are unauthorised and unlawful.

The value of the Shares may fall as well as rise and a Shareholder, upon redemption of Shares may not get back the amount he initially invested. Income from the Shares may fluctuate in money terms and changes in rates of exchange may cause the value of the Shares to go up or down. The levels and basis of, and relief from, taxation may change. There can be no assurance that the investment objectives of the Fund will be achieved.

The board of directors of the Fund (the “**Board of Directors**”) has to its best knowledge and belief taken all reasonable care to ensure that the information contained in this OFFERING MEMORANDUM is accurate and does not omit anything likely to affect the accuracy of such information.

Investors should inform themselves and should take appropriate advice on the legal requirements as to possible tax consequences, foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence, or domicile and which might be relevant to the subscription, purchase, holding, redemption, if applicable, or disposal of the Shares of the Fund.

Investors should furthermore be informed that the supervision of the Luxembourg Supervisory Authority – the Commission de Surveillance du Secteur Financier (CSSF) – on undertakings qualifying as Specialised Investments Funds is lighter than supervision normally carried out on UCITS IV products.

(a) A Director, an agent of the Fund including the Management Company, an Investment Manager or an Investment Adviser may control, directly or indirectly, an Affiliated Company. An Affiliated Company may be entitled to receive a portion, or all, of the brokerage commissions, transaction charges, advisory fees, investment management fees or any other type of remuneration paid out of the relevant Sub-Fund. An Affiliated Company may be in conflict of interest with the relevant Director, the Management Company, the relevant Investment Manager, the relevant Investment Adviser or any other agent of the Fund.

(b) Any Investment Manager and any Investment Adviser may advise or make, as the case may be, investments for the account of other persons and entities without making the same for the Fund where, in regard to its relevant obligations, the Investment Manager or the Investment Adviser consider that it acts in the best interests of the Fund, so far as reasonably practicable having regard to its obligations to those other persons and entities.

(c) An Interested Party may be involved in other financial, investment or other professional activities including in connection with the UCIs which may cause a conflict of interest with the Fund. Furthermore, Interested Parties may provide services similar to those provided to the Fund to other entities and will not be liable to account for any profit earned from these services. An Interested Party may also acquire investments in which a relevant Sub-Fund is or intends to invest into.

(d) The Fund may acquire securities from or dispose of securities to any Interested Party or any other UCI or account advised or managed by an Interested Party. An Interested Party may provide professional services to the Fund or hold Shares and buy, hold and deal in any investments for its own account notwithstanding that similar investments may be held by the Fund. An Interested Party may contract or enter into any financial or other transaction with any Shareholder or with any entity any of whose

securities are held by or for the account of the Fund, or is interested in any such contract or transaction.

(e) Furthermore, an Interested Party may receive remuneration in relation to any sale or purchase of an investment of the Fund for the account of a relevant Sub-Fund provided that in each case the terms are no less beneficial to that Sub-Fund than a transaction involving a disinterested party and that the relevant remuneration is in line with market practice.

For the purposes of alleviating such conflicts of interest, the Board of Directors will implement appropriate conflict management procedures which will be periodically reviewed and amended when necessary. Specific conflicts will be considered by the Board of Directors as they arise but it is possible that certain conflicts may not be entirely eliminated.

4. INVESTMENT / POLICIES AND OBJECTIVES /RESTRICTIONS

4.1. Investment philosophy and objectives

The object of the Fund is the collective investments of its assets in securities in order to spread the investment risks and to provide to the investors the benefit of the result of the management of its assets. The Investment policies and the objectives of the Fund are more detailed set out in the Appendix to this OFFERING MEMORANDUM.

4.2 Leverage and Borrowing policy

The Fund has the authority to borrow, trade on margin, utilize derivatives and otherwise obtain leverage from brokers, banks and others on a secured or unsecured basis. The Fund may utilize leverage to the extent deemed appropriate by the Investment Manager. The overall leverage of the relevant Sub-Fund will depend on the investment strategies employed by the Investment Manager in respect of the relevant Sub-Fund and specific market opportunities.

In addition, the Fund may borrow for cash management purposes, such as to satisfy redemption requests.

To facilitate such borrowings, the Fund may, among other things, enter into a credit facility with a third party credit institution.

The envisaged maximum level of leverage that may but not necessarily need to be employed in connection with the Fund's investment program calculated in accordance with the **AIFM Directive's gross method and Commitment method of the Sub-Fund's net Asset Value** is set out in the relevant Appendix.

In accordance with the AIFM Law, the Fund will for each Sub-Fund provide to competent authorities and investors the level of leverage of the Fund both on a gross and on a commitment method basis in accordance with the gross method where applicable as set out in Article 7 and the commitment method where applicable as set out in Article 8 of the AIFM Regulation.

Any determination to limit the amount of leverage, which may be employed by the Fund and/or the level thereof may not be changed by the Fund without the consent of Shareholders.

While leverage presents opportunities for increasing the total return on investments, it has the effect of potentially increasing losses as well. Accordingly, any event which adversely affects the value of an investment could be magnified to the extent leverage

is utilized and may result in a substantial loss to the Fund. The Fund may incur indebtedness whether secured or unsecured, with respect to each Sub-Fund, as further described in the relevant Appendix.

Unless otherwise stated in the relevant Appendix, borrowings may be utilized for investment purposes as well as bridge financing and to fund expense disbursements when liquid funds are not readily available.

4.3 Investment Restrictions:

Unless otherwise indicated in the Appendix to this OFFERING MEMORANDUM:

(a) General

The Sub-Fund may not invest more than 30 per cent of its assets or commitments to subscribe in securities of the same nature issued by the same issuer.

The restriction stated above is not applicable to:

(i) units or shares of UCIs if such UCIs are subject to risk diversification requirements comparable to those applicable to the Fund. For UCIs which are not subject to comparable risk diversification requirements, each Sub-Fund of a target UCI with multiple Sub-Funds is to be considered as a distinct target UCI if the principle of segregation of the Sub-Funds of the different Sub-Funds is ensured;

(ii) securities issued or guaranteed by a Member State of the OECD or by its local authority or by supranational institutions and organisations with European, regional or worldwide scope.

(b) Liquid Assets

Each Sub-Fund is entitled to invest in up to 100% of its Net Asset Value into Liquid Assets on a temporary basis, provided however that it does not invest more than 30% of its assets in investment of the same nature issued by the same issuer.

(c) Borrowing of cash

Subject to the relevant Special Section, a Sub-Fund may borrow permanently (through loans or otherwise) and for investment purposes from first class professionals specialised in these type of transactions, and secure those borrowings with liens or other security interests in the assets of the Sub-Fund provided that the Sub-Fund may not, at any point in time, incur a level of borrowing in excess of a percentage of its net assets determined in the relevant Special Section dedicated to that Sub-Fund.

The maximum borrowing amount on a permanent basis for investment purposes of each Sub-Fund is determined in the relevant Sub-Fund Appendix.

(d) Borrowing of securities

Subject to the relevant Sub-Fund Appendix, the Fund may borrow securities for the account of the Sub-Fund from a lender which is a first-class institution specializing in this type of transaction.

(e) Short selling of securities

Short selling may not result in a relevant Sub-Fund having a short position in securities of the same nature issued by the same issuer which represent more than 30% of the assets of the Sub-Fund.

The granting to a Prime Broker of a right of use (or hypothecation right) over the

Investments of a relevant Sub-Fund is conditional upon the inclusion of enforceable close-out netting provisions within the meaning of the Collateral Directive in the prime brokerage agreement.

The total value of the Investments of a relevant Sub-Fund over which a right of use can be granted in favour of a Prime Broker is limited to 140% of that Sub-Fund's liabilities towards the Prime Broker.

(f) Securities lending

Subject to the relevant Sub-Fund determinations under the Appendix to this OFFERING MEMORANDUM, each Sub-Fund may enter into securities lending transactions within a standardized lending system organized by a recognized securities clearing institution or by a highly rated financial institution specialized in this type of transaction.

In relation to these transactions, the Sub-Fund must in principle receive security of a value which upon the execution of the lending agreement must be at least equal to the value of the securities which have been lent.

Except as otherwise stated in the relevant Sub Fund Section under the Appendix to this OFFERING MEMORANDUM, collateral must be given in the form of cash and/or securities issued or guaranteed by a member State of the OECD or by their local authorities or by supranational institutions and organisations with EU, regional or worldwide scope, and must be blocked in favour of the Sub-Fund until the termination of the lending agreement.

If the Sub-Fund is not entitled to terminate the lending agreement at any time and to require restitution of the securities which have been lent,

1. the lending transactions may not be carried out on more than 50% of the aggregate market value of the securities in the portfolio of the relevant Sub-Fund; and
2. the lending transactions may not extend beyond a period of thirty (30) Business Days.

(g) Repurchase transactions (repos)

Subject to the relevant determinations of the Sub-Fund, the Fund may enter for the account of each Sub-Fund into a repurchase transaction of the "réméré" type or of the "mise en pension" type involving the sale and repurchase of securities where the seller is entitled or is obliged to repurchase the securities from the buyer at a price and time agreed between the two parties subject to the conditions that

- (i) the counterparty is a first-class institution specializing in this type of transaction;
- (ii) during the duration of the contractual arrangement, the securities acquired by the repo transaction may not be sold unless either the counterparty has exercised its right to repurchase the securities or the time limit has expired (exception may be made where the Sub-Fund has other means of coverage).

The Fund must ensure for the account of the Sub-Fund to keep the volume of repo transactions at the level which enables it at all times to meet its resale obligations.

Where the Fund for the account of the relevant Sub-Fund acts as seller, the securities may neither be transferred, pledged as collateral in favor of a third party, nor leveraged in any way whatsoever.

The Fund must have the necessary assets at its disposal on maturity of the contract in order, where applicable, to pay the price agreed for the return of the securities from

the transferee.

(h) Use of derivative financial instruments

When Sub-Funds are using derivative financial instruments, the Management Company will ensure risk-spreading comparable to the above paragraph and appropriate diversification of such derivatives' underlying assets. With the same objective, counterparty risk in OTC transactions will, as the case may be, be limited in consideration of the relevant counterparty's quality and status.

(i) Target Sub-Funds

Any Sub-Fund of the Fund may subscribe, acquire and/or hold securities to be issued or issued by one or more other Sub-Fund(s) of the Fund (the "**Target Sub-Fund**"), in accordance with the provisions set forth in this OFFERING MEMORANDUM and with the restrictions set forth in the SIF Law, as further amended and supplemented, provided that:

The Target Sub-Fund does not, in turn, invest in the Sub-Fund investing in the Target Sub-Fund;

The voting rights, attaching to the shares of the Target Sub-Fund are suspended for as long as they are held by the Sub-Fund;

In any event, for as long as the shares are held by the Sub-Fund, their value will not be taken into consideration for the calculation of the Net Asset Value of the Fund for the purpose of verifying the minimum threshold of the net assets imposed by the SIF Law.

(J) Kick off period

The investment restrictions of a relevant Sub-Fund may not be complied with during a transitional period determined in the Appendix of the relevant Sub-Fund in order to build-up the portfolio of that Sub-Fund.

The Board of Directors reserves the right to amend the investment policies and objectives of each Sub-Fund, in which case the OFFERING MEMORANDUM will be updated accordingly. Any such amendment shall be brought to the attention of the Shareholders by means of a 30 (thirty) days' previous notice before any amendment is implemented.

5. GENERAL RISK CONSIDERATIONS

An investment in a Sub-Fund is speculative and involves certain risks relating to the particular Sub-Fund structure and investment policies and objectives which investors should evaluate before making an investment. Although the Board of Directors for each Sub-Fund will attempt to manage those risks through careful research and portfolio management, there can be no assurance that it will do so successfully.

The following is a brief description of certain factors which should be considered along with other matters discussed elsewhere in this OFFERING. The following, however, does not purport to be a comprehensive summary of all the risks associated with any Sub-Fund.

It is important to outline that to the extent any counterparty of the Fund or a Sub-Fund involved in any type of transactions, is not entrusted with, or does not keep in safe custody assets of the Fund or a Sub-Fund, the selection of such counterparty shall be under the Fund's sole responsibility.

- **Risks linked to the investment objectives and the investment policies**

Importance of market judgment: market judgement and experience still remain very important element of strategic investment decisions even if these are supported by the use of quantitative valuation models. Therefore the outcome of any strategy is not the simple result of the application of quantitative (both proprietary and third party) models and therefore the greater the importance of subjective factors, the more unpredictable a strategy and its outcome are.

Risks linked to debt investments: a Sub-Fund may be exposed to credit risk including default risk and credit spread risk. Furthermore a Sub-Fund may be exposed to the integrity of the issuer's management, its commitment to repay the loan, its qualification, its operating record, its emphasis in strategic direction, financial philosophy, operational management and control systems as well as to its capacity and ability to generate cash flow to repay its debt obligations. A Sub-Fund may invest in debt which are issued without any guarantee, letter of credit, debt insurance or collateral including junior debt.

Risks linked to equity investments: a Sub-Fund may be exposed to equity risk including failures of the issuer and substantial declines in value at any stage. Investments in stock-listed equities made by a Sub-Fund depend for a large part of the evolution of the stock markets, and there will be little or no collateral to protect an investment once made. Sales of equity may not always be possible, and could therefore have to be made at substantial discounts. Equity holders have in general an inferior rank towards debt holders and so are exposed to higher risks. Furthermore a Sub-Fund may be entitled to take privately negotiated equity participations. In many cases, private equity invest in companies that have been in existence for only a short time and which intend to establish themselves in an existing market or occupy new business areas. Consequently, the process of forecasting the performance of such companies, their potential success, is often fraught with uncertainty. The market risks for private equity investments are partly dependent on the trade-sale and the IPO market which constitute key instruments for exiting from/selling a private equity investment. A reduced level of activity on the trade-sale and the IPO market may have an adverse, overall influence on the implementation of exit strategies.

Risks linked to investments in structured financial instruments: structured financial instruments are backed by, or representing interests in, the underlying investments of various nature. The cash flow on the underlying investments may be apportioned among the newly issued structured financial instruments to create securities with different investment characteristics such as varying maturities, payment priorities or interest rate provisions, and the extent of the payments made with respect to structured investments depends on the amount of the cash flow on the underlying investments. Structured financial instruments may embed leverage and so investments in structured financial instruments may be exposed to higher volatility as direct investments.

Risks linked to the lack of liquidity and marketability as well as due duration: a Sub-Fund may invest in assets which have not an access to financial markets. Consequently the asset may represent a low level of liquidity and marketability involving that selling of the asset in the market may only be possible with high discounts or not possible at all in certain market circumstances. Furthermore a Sub-Fund generally takes long-term positions. Due to fact that there may be a prevalence of longer-term over shorter term investments, the valuation of illiquidity premiums is important and may contribute to change significantly the performance of a relevant Sub-Fund.

Risks linked to investments in assets exposed to emerging market risk and political risk: a Sub-Fund may invest in securities issued in emerging markets as well as in assets

produced, extracted, traded or stocked in emerging markets. Certain issues are more prevalent in emerging markets than in other markets, such as high inflation making valuations problematic, macroeconomic volatility, capital restrictions and controls, and political risks. Furthermore there can be no assurance that the political and economic evolution in these countries will continue on a business friendly path. The political system of these countries is vulnerable to the population's dissatisfaction and exposed to internal pressure exercised by groups of influence with reforms, social unrest and changes in governmental policies, any of which could indirectly have a material adverse effect on the performance of the Fund.

Risks of possible concentration of investments: a Sub-Fund may hold a few relatively large investments in relation to its capital. Consequently a loss in a single investment could result in a relatively higher reduction in the Fund's capital than if such capital had been spread among a wider number of investments. Although a Sub-Fund may be well diversified within a relevant asset class, it may be exposed to the evolution of this specific asset class and so be exposed to substantial losses if this specific asset class suffers relevant decline.

Risk of early liquidation: in the event of the early liquidation of a Sub-Fund, the funds would have to be distributed to the Shareholders pro-rata with their interest in the assets of the Sub-Fund. The Sub-Fund's investments would have to be sold by the Fund or distributed to the Shareholders. It is possible that at the time of such sale or redemption certain investments held by the Sub-Fund may be worth less than the initial cost of the investment, resulting in a loss to the Sub-Fund and to its Shareholders. Moreover, in the event the Sub-Fund terminates prior to the complete amortisation of organisational expenses, any non-amortised portion of such expenses will be accelerated and will be debited (and thereby reduce) amounts otherwise available for distribution to Shareholders.

Risks due to foreign exchanges and currency risk: a Sub-Fund may invest its assets in equity and debt denominated in a wide range of currencies. The Net Asset Value of each Share Class expressed in its respective unit currency will fluctuate in accordance with the changes in foreign exchange rate between its unit currency, the reference currency of the Fund and the currencies in which the Fund's investments are denominated.

Risks due to investments in hedge funds: since a Sub-Fund may invest its assets in hedge funds, the Sub-fund's investment performance depends on the investment performance of the underlying funds in which it invests. Investing directly or indirectly in hedge funds is generally considered to be risky; if the underlying hedge funds do not perform, the value of the Fund may fall substantially. Investments in hedge funds are illiquid, will not be listed on any exchange and should be regarded as fixed and long term. Hedge funds may use leverage and other speculative practices which increase the risk of investment loss, their returns may be volatile, they are not required to provide period pricing or valuation information to investors and may involve complex tax structures and delays in distributing important tax information. Hedge funds are not subject to the same regulatory requirements as mutual funds. Investors can expect fees for the underlying funds to be higher as well as expect fund of hedge fund fees to be higher than those charged if the investor invested directly in a direct hedge fund.

Risks of using special investment techniques

Risks linked to trading on futures, options and other derivatives dealt or traded on a regular market: Futures, options and other derivatives are volatile and involve a high degree of leverage. The profitability of the Fund will depend also on the ability of the Board of Directors to make a correct analysis of the market trends, influenced by

governmental policies and plans, international political and economic events, changing supply and demand relationships, acts of governments and changes in interest rates. In addition, governments may from time to time intervene on certain markets, particularly currency markets. Such interventions may directly or indirectly influence the market. Given that only a small amount of margin or a low amount of premium may be required or paid to trade on futures and option markets, the operations of the portion of the Sub-Fund will be characterised by a high degree of leverage. As a consequence, a relatively small variation of the price of the derivative may result in substantial losses for the Sub-Fund and a correlated reduction of the Net Asset Value of the Sub-Fund.

Risks linked to entering into forwards, swaps, OTC options or any other OTC derivatives: The Sub-Fund may enter into one or more forward rate agreements, forwards, swaps, OTC derivatives in connection either with a hedge or an exposure. OTC derivatives are not traded on exchanges but rather banks and dealers act as principals by entering into an agreement to pay and receive certain cash flow over a certain time period, as specified in the OTC derivative. Consequently, the Sub-Fund is subject to the risk of the counterparty's inability or refusal to perform according to the terms of the OTC derivative. The OTC derivative market is generally unregulated by any governmental authority. To mitigate the counterparty risk resulting from such transactions, the Sub-Fund will enter into such transactions only with highly rated, first class financial institutions with which it has established ISDA agreements. The use of credit derivative such as credit default swaps can be subject to higher risk than direct investment in securities. The market for credit derivative may from time to time be less liquid than the markets for transferable securities. In relation to credit default swaps where the Sub-Fund buys protection, the Sub-Fund is subject to the risk of the counterparty of the credit default swaps defaulting. To mitigate the counterparty risk resulting from credit default swap transactions, the Sub-Fund will only enter into credit default swaps with highly rated financial institutions specialised in this type of transaction and in accordance with the standard terms laid down by the ISDA.

The Sub-Fund may have credit exposure to one or more counterparties by virtue of its investment positions. To the extent that a counterpart defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. Such risks will increase where the Sub-Fund uses only a limited number of counterparties. Participants to such markets are not protected against defaulting counterparts in their transactions because such contracts are not guaranteed by a clearinghouse.

Risks linked to counterparties: The Fund is allowed to enter in contractual relationships with all type of counterparties. To the extent that the Sub-Fund invests in derivatives as mentioned in the previous paragraph, the Sub-Fund may bear substantial credit risk and risk of settlement default. These risks might be larger than those born in exchange-traded negotiations where the function of the settlement and clearing house is to face such risks. Transactions entered directly between two counterparties do not benefit of the same level of security and pledge then those entered with a settlement and clearing house.

Risks linked to market participants: The institutions, including brokerage firms and banks, with which the Fund executes trades or enters in transaction may encounter financial difficulties that impair the operational capabilities or the capital position of such counterpart. The Fund will have no control whatsoever over the counterparties or brokers used by the companies or entities it is invested in.

Risks related to lending and borrowing of securities: A relevant Sub-Fund may borrow and lend securities as part of its investment strategy. In case of borrowing, a relevant Sub-Fund may have access to “hard-to-borrow” securities whose costs have to be borne by the Sub-Fund and which may have an impact on the performance of the Sub-Fund. Securities lending may have a positive impact on the performance of the Sub-Fund in terms of yield enhancement. However, third parties that borrow securities from the Sub-Fund may not be able to return these securities on first demand which may cause the Sub-Fund to default on its obligation to other counterparties.

Risks due to short sales: A Sub-Fund may be allowed to take short positions on securities. In such a case the Sub-Fund may be exposed to price movements in an opposite way as the expected one which may involve that the Sub-Fund is not able to cover the short position. As a result, the Sub-Fund may theoretically face an unlimited loss. The availability in the market of the borrowed securities cannot be ensured when necessary to cover such short position.

Risks linked to use of leverage: A relevant Sub-Fund may make use of leverage, i.e. a borrowing facility for purchasing securities and assets in excess of the equity value which is available for the Sub-Fund. If the cost of borrowing is lower than the net return earned on the purchased asset, the Sub-Fund may increase its performance. However, if the use of leverage exposes the Sub-Fund to additional risks such as but not limited to (i) greater potential losses on the investment purchase by using the leverage; (ii) greater interest costs and lower debt coverage in case of increasing interest rates and/or (iii) premature margin calls which may force the liquidation of some Sub-Fund’s investments (which may occur at a moment where the investments have been under pressure by the markets involving the liquidation at prices below the acquisition prices).

Risks linked to the use of the Depositary Bank, a Prime Broker and Third Party Custodians: All of the Financial Instruments of the Fund will be deposited with the Depositary Bank and all or part of such Financial Instruments may be sub-deposited with its sub-custodians (such as a Prime Broker subject to the prior consent of the Depositary Bank and the conditions set out in section 2.6 of this Offering Memorandum). Such Financial Instruments will in principle be clearly identified as belonging to the Fund. In case of the insolvency of the Depositary Bank or of the relevant sub-custodian, there might be problems in achieving the segregation of the Sub-Fund's Financial Instruments from those of other parties. This might create substantial losses for Shareholders.

Due to the fact that the Fund’s Financial Instruments are in custody with the Depositary Bank and/or its sub-custodians, the Fund may become one of the Depositary Bank's unsecured creditors. In the event of insolvency of the Depositary Bank or sub-custodian, the Fund may not be able to fully recover its Financial Instruments under custody.

Furthermore, the Fund's cash may not be segregated from the own cash of the Depositary Bank, of the Depositary Bank’s sub-custodians, of third party custodians (such as a Prime Broker) or of their respective other clients. In addition, such Fund’s cash may be permitted to be used in the ordinary course of the Depositary Bank’s, the Depositary Bank’s sub-custodians’ or the third party custodians’ business. Hence the Fund may become an unsecured creditor of the Depositary Bank or of third party custodians in relation thereto.

Specific risks associated with the structure of the Fund

Risks due to changes in applicable law: The Fund must comply with various legal requirements, including securities laws and tax laws as imposed by the jurisdictions under which it operates. Should any of those laws change over the life of the Fund, the legal requirement to which the Fund may be subject, could differ materially from current requirements.

Risks linked to special purpose vehicles: A relevant Sub-Fund may use special purpose vehicle for investments as well as may invest in securities issued by special purpose vehicles. All decisions with respect to the general management of such a special purpose vehicle are taken by the board of that special purpose vehicle. Such a board may have the broadest power to decide, among others, on issuing of securities such as bonds, notes or insurance linked securities, on reimbursement of capital, payment of interests and collection of various type of revenues such as but not limited to premiums. As a result, the performance of such a special purpose vehicle for the foreseeable future will depend largely upon the abilities of the special purpose vehicle and in particular key people exercising a mandate or working for the relevant special purpose vehicle. There can be no assurance that key people remain director, manager, officer or employee for the relevant special purpose vehicle.

6. THE SHARES

6.1. The Share Capital

The initial share capital of the Fund at the time of the incorporation was Euro 31.000 divided into 310 Shares. The minimum share capital as set by the SIF Law (Euro 1.250.000=) will be reached within a period of 12 months following the Fund's authorization by the CSSF.

The share capital of the Fund will be equal, at any time, to the total value of the net assets of the Fund.

The Fund has been set up as a "multiple compartment investment company" which means that the Fund may be composed of several Sub-Funds with each Sub-Fund constituting a separate portfolio of assets and liabilities. Each Sub-Fund is treated as a separate entity and operates independently and as between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Sub-Fund.

Pursuant to the Articles, the Board of Directors may decide to issue, within each Sub-Fund, one or several classes of Shares (each, hereinafter, also a "**Share Class**"), the assets of which will be commonly invested but subject to specific features which are defined hereunder such as, but not limited to, sales and/or redemption charge structures, currency structures, marketing target, distribution policies or hedging policies.

Where different classes are issued within a Sub-Fund, the details of each Share Class shall be described in the appendix containing details for each Sub-fund (the "**Appendix**"). References herein to Shares of a Sub-Fund should be construed as being to Shares of a class of a Sub-Fund, if the context so requires.

A separate net asset value per Share, which may differ as a consequence of these variable factors, will be calculated for each Share Class.

Shares are issued in registered form only; owners of registered Shares will be entered in the Register of Shareholders and the entry will indicate, *inter alia*, the name of each owner of registered Shares, his residence or elected domicile as communicated to the

Fund, the number of registered Shares which he holds and the amount paid on the Shares. The entry of the name of the Shareholder in the register of Shares is proof of his ownership of such Shares

Fractions of Shares are allowed up to two decimal places for registered Shares.

Shares are freely transferable to Well Informed Investors (as defined in paragraph 5.2) except to U.S. Persons or relevant nominees.

All Shares must be fully paid-up; they are of no par value and carry no preferential or pre-emptive rights. Each Share of the Fund, irrespective of its Sub-Fund, is entitled to one vote at any general meeting of Shareholders, in compliance with Luxembourg law and the Articles.

However, the Fund may decline to accept the vote of any U.S. Person, as referred to here above and provided in the Articles.

6.2. Eligible Investors

In accordance with the SIF Law, subscription for Shares in the Fund is exclusively limited to well-informed investors (the “**Well-Informed Investors**”) within the meaning of the article 2 of the SIF Law, namely:

1. an institutional investor, or
2. a professional investor or
3. any other investor who meets the following conditions:
 - adheres in writing to the status of well-informed investors; **and either**
 - invests a minimum of EUR 125,000 (one hundred and twenty five thousand Euros) in the Fund; **or**
 - benefit from a certificate delivered by a credit institution within the meaning of the EU directive 2006/48/EC, an investment company within the meaning of Directive 2004/39/EC or a management company within the meaning of the EU directive 2009/65/EC, stating its expertise, its experience and its knowledge to appreciate in an adequate manner the investment performed in a specialized investment fund.

The Fund may restrict or object to the ownership of Shares in the Fund by any person that does not comply with the requirements set out above.

For this purpose the Fund may:

- refuse to issue Shares and to register the transfer of Shares when it appears that this issue or transfer would, or could, result in the ownership of Shares by any Person not qualifying as a Well-Informed Investor;
- proceed with the compulsory redemption of all or some of the Shares if it appears that a Person is not a Well-Informed Investor.

The compliance with requirements of the status of Well-Informed Investor is verified by the Administrator in accordance with the terms of the Central Administration Agreement under the responsibility of the Fund.

The Fund reserves the right to refuse all or a part of an application for subscription. In the case of non-acceptance of an application, the amount of the subscription or the balance remaining from a partial acceptance shall be reimbursed to the applicant

within five working days of the refusal by wire transfer, in which case all charges shall be borne by the applicant.

6.3. Issue of Shares

During the Initial Offering Period, the Fund can offer the Shares under the terms and conditions set out in the Appendix.

After the Initial Offering Period, the subscription price per Share (the "**Subscription Price**") will be equal to the net asset value ("**NAV**") per Share of the relevant Class of the relevant Sub-Fund increased, as the case may be, by the subscription fee as detailed in the Appendix.

The Subscription Price is available for inspection at the registered office of the Fund.

Prospective investors and Shareholders should note that the Fund may reject or cancel any subscription or conversion orders for any reason and in particular in order to comply with Circular 04/146.

The repeated purchase and sale of Shares designed to take advantage of pricing inefficiencies in the Fund - also known as "Market Timing" - may disrupt portfolio investment strategies and increase the Fund's expenses and adversely affect the interests of the Fund's long term Shareholders. To deter such practice, the Board of Directors reserves the right, in case of reasonable doubt and whenever an investment is suspected to be related to Market Timing, which the Board of Directors shall be free to appreciate, to suspend, revoke or cancel any subscription order placed by Shareholders who have been identified as doing frequent in and out trades within the Fund.

The Board of Directors, as safeguard of the fair treatment of all Shareholders, takes necessary measures to ensure that:

- the exposure of the Fund to Market Timing activities is adequately assessed on an ongoing basis, and
- sufficient procedures and controls are implemented to minimise the risks of Market Timing in the Fund. These functions are delegated to the Registrar and Transfer Agent.

The Fund issues registered Shares the proceeds of which are commonly invested in accordance with the specific investment policy of each Sub-Fund.

The Board of Directors may decide to issue different classes of Shares in each Sub-Fund, in which case this OFFERING MEMORANDUM will be updated from time to time, upon the issue of a new Share Class.

In the case of suspension of dealings in Shares, the application will be dealt with on the first Valuation Day (as defined in the Appendix) following the end of such suspension period.

Pursuant to international rules and Luxembourg laws and regulations (comprising but not limited to the law of November 12, 2004 on the fight against money laundering and financing of terrorism, as amended) as well as circulars of the supervising authority, obligations have been imposed on all professionals of the financial sector to prevent the use of undertakings for collective investment for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg undertaking for collective investment must ascertain the identity of the investors. Accordingly, the Fund Administrator may require, pursuant to its risks based

approach, investors to provide proof of identity. In any case, the Fund Administrator may require, at any time, additional documentation to comply with applicable legal and regulatory requirements.

Such information shall be collected for compliance reasons only and shall not be disclosed to unauthorised persons.

In case of delay or failure by an Investor to provide the documents required, the application for subscription may not be accepted and in case of redemption request, the payment of the redemption proceeds and/or dividends may not be processed. Neither the Board of Directors nor the Fund Administrator have any liability for delays or failure to process deals as a result of the investor providing no or only incomplete documentation.

Shareholders may be, pursuant to the Fund Administrator's risks based approach, requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations.

Confirmation of completed subscriptions will be sent by letter, swift or telefax, at the risk of the investor, to the shareholder contact details indicated in the subscription form within 24 hours after the calculation of the NAV.

Issue of Shares of a given Sub-Fund shall be suspended whenever the determination of the Net Asset Value per Share of such Sub-Fund is suspended by the Fund.

The Board of Directors may impose restrictions on the frequency at which Shares shall be issued. The Board of Directors may, in particular, decide that Shares only be issued during one or more offering periods or at such other periodicity as detailed in the Appendix for each Sub-Fund.

Furthermore, the Board of Directors may impose restrictions in relation to the minimum amount of the aggregate net asset value of Shares to be initially subscribed, the minimum amount of any additional investments and the minimum of any holding of Shares.

Subject to the above limitation, subscriptions for Shares in each Sub-Fund can be made on any Business Day (a "**Business Day**": any day on which banks are open for business in Luxembourg). Applications for subscriptions will normally be satisfied on the next Valuation Day, provided that the application is received before the cut-off time detailed in the Appendix and that subscription proceeds are received by the Depositary Bank within the cut-off detailed in the Appendix.

The Fund may also limit the distribution of Shares of a given Sub-Fund to specific countries.

All subscriptions shall be made directly to the Sub-Fund's account with the Depositary Bank.

The Board of Directors may agree that the Fund issues Shares for a contribution in kind of equity, debt, loans, financial instruments or any other assets provided that such assets comply with the investment objectives, restrictions and policy of the relevant Sub-Fund and with the conditions set forth by Luxembourg law. In the case where Shares are issued for a contribution in kind, a valuation report on this contribution must be delivered from an auditor qualifying as a *réviseur d'entreprises agréé* which will be available for inspection. Any costs incurred in connection with a contribution in kind of the said assets, including the costs of the valuation report, will be borne by the incoming investor.

“Series” refers to a series of Shares issued such that each issue of Shares on a specific Valuation Date in any Class may constitute a separate series.

Shares may be issued in a Series, each Series representing the Shares issued on a particular Valuation Date in any Class unless subsequently redeemed.

Each Series will be identified by a different number corresponding to each Valuation Date on which they have been issued; different Investment Manager Performance Fee accruals, if any, will be applied to each different Series depending on the Valuation Date upon which they have been issued. Shares of different Series may be converted into Shares of one Series where a performance fee has been earned or on a periodic basis as determined by the Board and notified to Shareholders.

Where a Sub-Fund issues Shares in a Series, the Net Asset Values per Share of Shares of different Series may vary as a result of calculating and accruing the Investment Manager Performance Fee, as more fully described in the section “Charges and Expenses” of this Prospectus.

The shareholders leaving the initial series, have redeemed their shares with a NAV per share price without performance fees, and have subscribed shares in their new series with the proceed of this redemption.

On this date their performance have been maintained between the old and the new method.

Disclosure of Information

Shareholders are informed that their personal data or information given in the subscription documents or otherwise in connection with an application to subscribe for Shares, as well as details of their shareholding, will be stored in digital form and processed in compliance with the provisions of the Luxembourg law of 2 August 2002 on data protection.

Personal information given on the application form or otherwise in connection with an application to subscribe for Shares and details of your shareholding may be disclosed to the Management Company, the Investment Manager or any other companies affiliated to the Investment Manager. Personal data contained in the application form or otherwise furnished in connection with any application and details of shareholdings may be processed by the Investment Manager and its affiliates for the purpose of developing and processing the business relationship with the Shareholder. To this end data may be transmitted, both in the UK and internationally, to other companies affiliated with the Investment Manager and to all intermediaries and all other parties which intervene in the process of the business relationship. By signing the application form, an investor consents to such transfer and processing.

Certain personal data concerning investors may also be gathered, recorded, transferred, treated and used by the Fund, the Fund Administrator as well as by other companies linked to the Fund and the distributors/nominees. Such data may be used particularly within the framework of the identification obligations required by the legislation relating to the fight against money laundering and terrorist financing. Such information will not be transmitted to non-authorised third parties. By subscribing to Shares of the Fund, each investor agrees to such a treatment of its personal data.

Shareholders must also be aware that telephone conversations with the Fund, the Depositary Bank and the Administrator may be recorded. Recordings will be conducted in compliance with the applicable laws and regulations. Recordings may be produced in court or other legal proceedings with the same value in evidence as a written document.

6.4. Conversion of Shares

Subject to *i)* any limitations set out in the Appendix to this OFFERING MEMORANDUM, *ii)* any suspension of the determination of the Net Asset Values concerned, *iii)* compliance with any eligibility conditions of the Sub-Fund and Share Class into which the conversion is to be effected and *iv)* the right of the Board of Directors to refuse any conversion in the interest of the relevant Shareholders or of the Sub-Fund into which the conversion is to be effected, Shareholders may have the right to convert all or part of their Shares in any Sub-Fund into shares of another existing Sub-Fund, by making a request in writing or by fax, to the Fund indicating the number and the reference name of the shares to be converted.

Specific cut-off times for each Sub-Fund are detailed in the Appendix.

The number of shares issued upon conversion will be based upon the price of the Shares of the two Sub-Funds concerned on the common Valuation Day following the Business Day on which the conversion request is accepted.

No conversion fee shall apply.

Under the responsibility of the Board of Directors, conversions may be effected in kind by conversion of a representative selection of the original Sub-Fund's holding in securities and cash pro rata to the number of shares converted, to the receiving Sub-Fund having a compatible investment policy as certified by the auditor of the Fund. Any expenses incurred in the valuation of the conversion in kind shall be borne by the incoming investor.

The number of shares allocated in the new Sub-Fund or Share Class shall be determined as follows:

$$A = \frac{(B \times C \times D)}{E}$$

A: number of shares allotted in the new Sub-Fund/Share Class;

B: number of shares presented for conversion in the original Sub-Fund/Share Class;

C: Conversion Price, on the applicable Valuation Day, of the shares of the original Sub-Fund/Share Class, presented for conversion;

D: exchange rate applicable on the day of the operation between the currencies of both Sub-Funds/Share Classes;

E: Conversion Price on the applicable Calculation Day of the shares allotted in the new Sub-Fund/Share Class.

In addition, if, as a result of a conversion, the value of a Shareholder's remaining holding in the original Sub-Fund would become less than the minimum holding referred in the Appendix, the relevant Shareholder will be deemed to have requested the conversion of all of its shares.

6.5. Redemption of Shares

Redemption requests should contain the following information: the identity and address of the Shareholder requesting the redemption, the number of Shares to be redeemed, the relevant Sub-Fund, the relevant Share Class, the name in which such Shares are registered. All necessary documents to complete the redemption should be enclosed with such request.

Redemption payments will be made in the reference currency of the relevant Share Class being redeemed. Details on payment of redemption proceeds are to be found in the Appendix.

The Fund may limit the total number of Shares in a Sub-Fund which may be redeemed for any Valuation Day to a number representing 10% (ten per cent) of the Net Asset Value of a Sub-Fund. The redemption of a number of Shares representing **more than 10%** of the Net Asset Value shall be assessed and allowed, by the Board of Directors taking into consideration the interest of remaining and redeeming Shareholders. The limitation will be applied to the Shareholders that presented their Shares for redemption as described for each Sub-Fund in the Appendix.

The Board of Directors currently expects not to exercise such power to limit the redemptions except to the extent that they consider that remaining Shareholders would otherwise be materially prejudiced or that such exercise is necessary to comply with applicable law or regulation.

The Board of Directors shall ensure that part or all of such requests for redemption will be deferred proportionally for such period as the Board of Directors considers to be in the best interests of the Sub-Fund. These redemption requests will be met on a pro-rata basis in priority to later requests and in compliance with the principle of equal treatment of Shareholders at a following Valuation Day.

Except as otherwise provided for a Share Class or Sub-Fund in the relevant Appendix, the Board of Directors may, in its sole discretion, in compliance with the conditions set forth by Luxembourg law, notably the obligation to deliver a valuation report from an auditor qualifying as a réviseur d'entreprises agréé, decide to satisfy the payment of the redemption proceeds to any Shareholder either wholly or partly in specie by allocating to such Shareholder assets of the relevant Sub-Fund, equal in value as of the Valuation Day with respect to which the redemption price is calculated, to the Net Asset Value of the Shares to be redeemed less any applicable redemption fee. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the redeeming Shareholder and/or the other Shareholders of the relevant Share Class(es). The cost of such transfer shall be borne by the transferee.

In principle, a Shareholder may not withdraw his request for redemption of Shares of any Sub-Fund, except in the event of a suspension of the calculation of the Net Asset Value of the Shares of such Sub-Fund and, in such event, a withdrawal will be effective only if written notification is received by the Transfer Agent before the termination of the period of suspension. If the request is not withdrawn, the Fund shall proceed to redemption on the first applicable Valuation Day following the end of the suspension of the determination of the Net Asset Value of the Shares of the relevant Sub-Fund.

However, redemption requests may be withdrawn subject to the approval of the Board of Directors, to be released on a case by case basis, until the day preceding the relevant Valuation Day.

The Articles provide that the Board of Directors, on behalf of any Sub-Fund, may compulsorily redeem the Shares held by any person, firm or corporate body, if in the opinion of the Board of Directors such holding may be detrimental to the Sub-Fund, if it may result in a breach of any law or regulation whether Luxembourg or foreign, or if as a result thereof the Sub-Fund may become subject to laws other than those of the Grand Duchy of Luxembourg (including but without limitation tax laws); specifically but without limitation the Sub-Fund may compulsorily redeem Shares held by any U.S. Person or a person who is not an Eligible Investor.

The Shares redeemed by the Fund will be cancelled.

Specific cut-off times for each Sub-Fund are detailed in the Appendix. Notwithstanding the above, the Board of Directors, in its sole discretion, reserves the right to accept redemptions requests received after the expiration of the cut-off time set in the Appendix.

6.6. Transfer of Shares

Transfer of registered shares shall be effected (i) if share certificates have been issued, upon delivering the certificate or certificates representing such shares to the Fund along with other instruments of transfer satisfactory to the Fund and (ii) if no share certificates have been issued, by a written declaration of transfer to be inscribed into the register of shareholders, dated and signed by the transferor and the transferee, or by persons holding suitable powers of attorney to act therefore. Any transfer of registered shares shall be entered into the register of shareholders; such inscription shall be signed by one or more directors or officers of the Fund or by one or more other persons duly authorized thereto by the board of directors.

The transfer of Shares shall be permitted as long as the transferee qualifies as a Well-informed Investor and is not a person to whom the holding of the Shares is prohibited.

7. THE DETERMINATION OF THE NET ASSET VALUE

7.1 Calculation and Publication

The valuation of the assets of the Fund is based on the fair value.

The Net Asset Value of the Shares of each Sub-Fund is determined in the reference currency of each Share Class. It shall be determined on each Valuation Day by dividing the net assets attributable to each Share Class by the number of Shares of such Share Class then outstanding. The net assets of each Share Class are made up of the value of the assets attributable to such Share Class less the total liabilities attributable to such Share Class calculated at such time as the Board of Directors shall have set for such purpose.

The NAV per Share may be rounded up or down to the nearest second decimal place.

The value of the assets of the Fund shall be determined as follows:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Fund may consider appropriate in such case to reflect the fair value thereof;
- (ii) the value of securities which are listed or dealt in on any stock exchange will be based on the previous day closing prices on the stock exchange which can reasonably be considered the principal market of such securities, and each security traded on any other stock exchanges or regulated markets will, unless otherwise provided in the OFFERING MEMORANDUM, be based on its last available price on the principal market on which such securities are listed or admitted for trading, as furnished by a recognized pricing

service approved by the Board of Directors; for non-listed securities or securities not traded or dealt in on any stock exchange or other regulated market, as well as listed or non-listed securities on such other market for which no valuation price is available, or securities for which the quoted prices are not representative of the fair market value, the value thereof shall be determined prudently and in good faith on the basis of foreseeable sales prices or on the basis of the prices as determined by the Board of Directors; the value of each security or other asset dealt in on any other regulated market that operates regularly, is recognized and is open to the public (a “**Regulated Market**”) will be based on its last available price on the principal market on which such security is listed or admitted for trading, as furnished by a recognized pricing service approved by the Board of Directors.

- (iii) in the event that any assets are not listed nor dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange or on any other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (b) or (c) is not representative of the fair market value of the relevant assets, or if, with respect to any assets listed or not listed on such other market for which no valuation price is available, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith or on the basis of the prices as determined by the Board of Directors.
- (i) Units or shares of other undertakings for collective investments will be valued at their latest determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis. In particular some of the other undertakings for collective investment might not offer a valuation more frequently than monthly; valuations of such investments might be based on estimated or final figures calculated on the last available valuation and the market development in the opinion of the relevant manager of these investments. These valuations may be subject to adjustment (upward or downward) upon the finalization or the auditing of such valuation; the liquidating value of futures, spot, forward or options contracts not traded on stock exchanges nor on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the board of directors, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, spot, forward or options contracts traded on stock exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on stock exchanges and Regulated Markets on which the particular futures, spot, forward or options contracts are traded by the Fund; provided that if a futures, spot, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. Swaps will be valued at their market value.
- (ii) all other securities and other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

- (iii) money market instruments are valued at: *a)* market value plus any accrued interest for instruments having, at the moment of their acquisition by the Fund, an initial or remaining maturity of more than 12 (Twelve) months, until the instruments have a remaining maturity of less than 12 (Twelve) months at which time they will move to an amortised cost basis plus accrued interest, and *b)* if no market value is available on an amortised cost basis plus accrued interest for instruments having, at the moment of their acquisition by the Fund, an initial or remaining maturity of less than 90 (ninety) days.

For the purpose of determining the value of the assets of the Fund, the Fund Administrator, having due regards to the standard of care and due diligence in this respect, may, when calculating the NAV, completely and exclusively rely upon the valuations or prices which can be:

- (a) either provided by or through independent specialized and reputable external pricing sources which are either used by common market practice (including, but not limited to, (i) generally used information sources such as Reuters, Bloomberg, Telekurs and similar, (ii) brokers, prime brokers or external depositories, (iii) the administrators of portfolio funds and other assets, where the valuation of such assets is established by an administrator), or which have been specifically appointed to that effect by the Board of Directors or the Management Company in accordance with the AIFM Regulation (the “External Pricing Sources”), or
- (b) established by the Management Company itself or any independent external valuer.

In such circumstances, the Fund Administrator shall not, in the absence of manifest error on its part, be responsible for any loss suffered by the Fund or any shareholder by reason of any error in the calculation of the NAV and the NAV per Share resulting from any inaccuracy in the information provided by the External Pricing Sources, by the Management Company itself or any external valuer.

In circumstances where one or more External Pricing Sources, the Management Company or the relevant service provider fail(s) to provide pricing/valuations for the assets of the Fund or, if for any reason, the pricing/valuation of any asset of the Fund may not be determined as promptly and accurately as required, the Fund Administrator shall inform the Board of Directors thereof and the Management Company and the Fund Administrator shall obtain from it authorized instructions in order to enable it to finalize the computation of the NAV. The Board of Directors and the Management Company may decide to suspend the Net Asset Value calculation, in accordance with the relevant provisions in the OFFERING MEMORANDUM and the Articles and instruct the Fund Administrator to suspend the Net Asset Value calculation. In such circumstances, the Fund Administrator shall not, in the absence of manifest error on its part, be responsible for any loss suffered by the Fund or any Shareholder. The Board of Directors or the Management Company shall be responsible for notifying the suspension of the Net Asset Value calculation to the Shareholders, if required, or for instructing the Fund Administrator to do so. If the Board of Directors or the Management Company do not decide to suspend the Net Asset Value calculation in a timely manner, they shall be liable for all the consequences of a delay in the Net Asset Value calculation, and the Fund Administrator may inform the relevant authorities and the Fund’s auditor in due course.

The Fund is authorised to apply other adequate valuation principles for the assets of the Fund and/or the assets of a given Sub-Fund if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

If the Board of Directors considers that the Net Asset Value calculated on a given Valuation Day is not representative of the fair value of the Fund's Shares, or if, since the calculation of the Net Asset Value, there have been significant fluctuations on the stock exchanges concerned, the Board of Directors may decide to actualise the Net Asset Value on that same day. In these circumstances, all subscription and redemption requests received for that day will be handled on the basis of the actualised Net Asset Value with care and good faith.

The value of all assets and liabilities not expressed in the reference currency of a Sub-Fund will be converted into the reference currency of such Sub-Fund at the rate of exchange used by the Fund Administrator on the relevant Valuation Day. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board of Directors.

The Board of Directors, in its discretion, may permit some other method of valuation to be used, if it considers that such valuation better reflects the fair value of any asset of the Fund.

The Net Asset Value per Share of each Sub-Fund and the issue and redemption prices thereof are available at the registered office of the Fund.

With respect to the protection of investors in case of net asset value calculation error and the correction of the consequences resulting from non-compliance with the investment rules applicable to the Fund, the Board of Directors intends to comply with the principles and rules set out in CSSF circular 02/77 of 27 November 2002, subject to what is specified here below:

- (a) the tolerance threshold applicable for the Net Asset Value calculation error (the **"Tolerance Threshold"**) shall be, subject to the Fund Administrator's prior approval, the threshold stated in the relevant Appendix of each Sub-Fund in this OFFERING MEMORANDUM. If no threshold is provided for in this OFFERING MEMORANDUM, the threshold provided for in CSSF circular 02/77 or otherwise agreed between the Fund Administrator and the Board of Directors and/or the Management Company shall apply;
- (b) the correction shall be made under the control of the auditor of the Fund.

7.2

Temporary Suspension of Issues and Redemptions

The determination of the Net Asset Value of Shares of one or several Sub-Funds or Share Classes may be suspended during:

- (a) any period when any of the principal markets or stock exchanges on which a substantial portion of the investments of the concerned Sub-Fund or Share Class is listed or dealt in, is closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended; or
- (b) the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets of the concerned Sub-Fund would be impracticable; or
- (c) any breakdown in the means of communication or computation normally employed in determining the price or value of the assets of the concerned Sub-Fund or the current prices or values of such assets on any market or stock exchange; or
- (d) any period when the Fund is unable to repatriate funds for the purpose of making payments on the redemption of Shares or during which any transfer

of funds involved in the realisation or acquisition of investments or payments due on redemption of Shares cannot in the opinion of the Board of Directors be effected at normal rates of exchange.

- (e) when for any other reason, the prices of any investments owned by the Fund attributable to such Sub-Fund cannot be promptly or accurately ascertained.
- (f) for the purpose of winding up, dissolution, orderly disposal of the Fund or of any Sub-Funds;
- (g) during any period when the market of a currency in which a substantial portion of the assets of the Fund is denominated is closed otherwise than for ordinary holidays, or during which dealings therein are suspended or restricted;
- (h) during any period when political, economic, military, monetary or fiscal circumstances which are beyond the control and responsibility of the Fund prevent the Fund from disposing of the assets, or determining the net asset value of the Fund in a normal and reasonable manner;
- (i) during any period when the calculation of the net asset value per unit or share of a substantial part of the undertakings for collective investment the Fund is investing in, is suspended and this suspension has a material impact on the net asset value of such Share Class;
- (j) in any other case where deemed necessary by the Board of Directors.

The Board of Directors has the power to suspend the issue and redemption of Shares in one or several Sub-Funds for any period during which the determination of the Net Asset Value per Share of the concerned Sub-Fund(s) is suspended by the Fund by virtue of the powers described above. Any redemption request made or in abeyance during such a suspension period may be withdrawn by written notice to be received by the Fund before the end of such suspension period. Should such withdrawal not be effectuated, the Shares in question shall be redeemed on the first Valuation Day following the termination of the suspension period. Shareholders who have requested the issue or redemption of Shares shall be informed of such suspension when such request is made.

Any application for subscription, conversion or redemption of Shares submitted to the relevant Sub-Fund during a suspension period may be withdrawn by the applicant; such withdrawal must be notified to the Fund before the end of the suspension period. If no such notice is received by the Fund, such application will be dealt with on the first Valuation Day following the end of the period of suspension.

8. DISTRIBUTION POLICY

The Fund's operating plan in general does not contemplate payment of dividends to Shareholders. The Board of Directors may however decide to declare payment of dividends on its own discretion within the limits of the Luxembourg law on commercial companies.

9. CHARGES AND EXPENSES

9.1. Operational costs

The Fund bears its operational costs including but not limited to the cost of valuation

9.2. Formation and launching expenses of the Fund and of additional Sub-Funds

All costs associated with the information of the Fund, including establishment and legal costs, estimated at about EUR 50.000,00, will be amortised over a period of 5 (five) years. These expenses will be divided in equal parts between the Sub-Funds in existence at the date of formation.

The Fund may at any time be dissolved by a resolution of the general meeting of Shareholders subject to the quorum and majority requirements applicable for amendments to the Articles.

Whenever the share capital falls below two-thirds of the minimum capital of EUR 1,250,000-, the question of the dissolution of the Fund shall be referred to a general meeting of Shareholders by the Board of Directors. The general meeting, for which no quorum shall be required, shall decide the dissolution by simple majority of the Shares

represented at the meeting.

The question of the dissolution of the Fund shall also be referred to a general meeting of Shareholders whenever the share capital falls below one-fourth of the minimum capital of EUR 1,250,000-; in such event, the general meeting shall be held without any quorum requirement and the dissolution may be decided by Shareholders holding one-fourth of the Shares represented at the meeting.

The meeting must be convened so that it is held within a period of forty days as from ascertainment that the share capital has fallen below two-thirds or one-fourth of the legal minimum, as the case may be.

Liquidation shall be carried out by one or several liquidators, who may be physical persons or legal entities and do not need to be Shareholders; the general meeting of Shareholders, shall appoint them and determine their powers and their compensation.

The net proceeds of liquidation corresponding to each Share Class in each Sub-Fund shall be distributed by the liquidators to the holders of Shares of the relevant class of Shares in the relevant Sub-Fund in proportion to their holding of such Shares in such Share Class.

Should the Fund be voluntarily or compulsorily liquidated, its liquidation will be carried out in accordance with the provisions of the SIF Law, which specify the steps to be taken to enable Shareholders to participate in the distribution(s) of the liquidation proceeds and provide for a deposit in escrow at the Caisse de Consignation at the time of the close of liquidation. Amounts not claimed from escrow within the statute of limitation period shall be liable to be forfeited in accordance with the provisions of Luxembourg law.

12. DISSOLUTION AND MERGER OF SUB-FUNDS OR SHARE CLASSES

In the event that for any reason the value of the net assets in any Sub-Fund has decreased to or has not reached an amount of the equivalent of EUR 5.000.000 (five million) which is the minimum level for such Sub-Fund to be operated in an economically efficient manner, or if a change in the economic, monetary or political situation relating to the Sub-Fund or Share Class concerned would have material adverse consequences on the investments of that Sub-Fund or Share Class or in order to proceed to an economic rationalization, the Board of Directors may decide to compulsorily redeem all the Shares issued in such Sub-Fund or Share Class at their NAV (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect. The Fund shall send a notice in writing to the holders of Shares concerned by the compulsory redemption prior to the effective date for such compulsory redemption, which will indicate the reasons for, and the procedure of, the redemption operations. Unless it is otherwise decided in the interests of or to keep equal treatment between the Shareholders, the Shareholders of the Sub-Fund or Share Class concerned may continue to request redemption or conversion (if appropriate) of their Shares free of charge (but taking into account actual realization prices of investments and realization expenses) prior to the effective date for the compulsory redemption.

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraph, the general meeting of Shareholders of any Sub-Fund or Share Class may, upon proposal from the Board of Directors, redeem all the Shares of such Sub-Fund or class and refund to the Shareholders the NAV of their Shares (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect. There shall be no quorum

requirements for such general meeting of Shareholders which shall decide by resolution taken by simple majority of those present or represented and voting at such meeting.

Assets which may not be distributed to their beneficiaries upon the implementation of the redemption will be deposited with the Depositary Bank for the time provided by the law; after such period, the assets will be deposited with the Caisse de Consignation on behalf of the persons entitled thereto.

Under the same circumstances as provided in the first paragraph of this section, the Board of Directors may decide to allocate the assets of any Sub-Fund to those of another existing Sub-Fund within the Fund or to another undertaking for collective investment or to another Sub-Fund within such other undertaking for collective investment (the "new Sub-Fund") and to re-designate the Shares of the Sub-Fund concerned as Shares of the new Sub-Fund (following a split or consolidation, if necessary, and the payment of the amount corresponding to any fractional entitlement to Shareholders). Such decision will be notified in the same manner as described in the first paragraph of this section (and, in addition, the notification will contain information in relation to the new Sub-Fund), one month before the date on which the amalgamation becomes effective in order to enable Shareholders to request redemption or conversion of their Shares, free of charge, during such period. After such period, the decision commits the entirety of Shareholders who have not used this possibility, provided however that, if the amalgamation is to be implemented with a Luxembourg undertaking for collective investment of the contractual type ("*fonds commun de placement*") or a foreign based undertaking for collective investment, such decision shall be binding only on the Shareholders who are in favour of such amalgamation; the other shareholders will be considered to have asked for the redemption of their shares.

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraph, a contribution of the assets and of the liabilities attributable to any Sub-Fund to another Sub-Fund of the Fund may be decided upon by a general meeting of the Shareholders of the Sub-Fund concerned which will decide upon such an amalgamation by resolution taken with no quorum and by simple majority of those present or represented and voting at such meeting.

A contribution of the assets and of the liabilities attributable to any Sub-Fund to another undertaking for collective investment referred to in the fifth paragraph of this section or to another Sub-Fund within such other undertaking for collective investment shall require a resolution of the Shareholders of the Sub-Fund concerned taken with no quorum and by simple majority of those present or represented and voting at such meeting, except when such an amalgamation is to be implemented with a Luxembourg undertaking for collective investment of the contractual type ("*fonds commun de placement*") or a foreign based undertaking for collective investment, in which case resolutions shall be binding only on such Shareholders who have voted in favour of such amalgamation.

13. TAXATION

13.1. Taxation of the Fund

Under present Luxembourg law and administrative practice, neither the Fund nor any of its Sub-funds is liable for any Luxembourg corporate income tax, municipal business tax, and net wealth tax.

However, the Fund is liable in Luxembourg to a "taxe d'abonnement" of 0.01 % per

annum of its net assets, such tax being payable quarterly and calculated on the aggregate Net Asset Value of each Sub-Fund at the end of the relevant calendar quarter.

The value of assets represented by units or shares held in other undertakings for collective investments is however exempt from subscription tax provided such units or shares have already been subject to this tax. No other stamp duty or other tax is payable in Luxembourg on the issue of shares by the Fund.

The Fund is liable for a flat registration duty of EUR 75 to be paid upon incorporation and upon future modification (if any) of its articles of incorporation.

Dividends and interest, if any, received by the Fund from investments may be subject to taxes and/or withholding taxes in the countries concerned at varying rates, such (withholding) taxes usually not being recoverable. The Fund may be liable to certain other foreign taxes

13.2. Taxation of the Shareholders

Under current legislation, Shareholders are not liable to any taxation in Luxembourg in relation to the holding, sale, redemption or transfer of the Shares of the Fund (except for (i) those domiciled, resident or having a permanent establishment in Luxembourg, (ii) certain former residents of Luxembourg or (iii) Shareholders holding more than 10% of the Shares of the Fund and who dispose of all or part of their holdings within 6 months following acquisition) subject to the application of the Council Directive 2003/48/EC regarding the taxation of savings income, implemented within the Luxembourg legal framework per a Law dated 21 June 2005 (the “**EU Savings Directive**”).

It is expected that Shareholders in the Fund will be resident for tax purposes in many different countries. Consequently, no attempt is made in this OFFERING MEMORANDUM to summarize the taxation consequences for each investor of subscribing, converting (if any), holding or redeeming, if applicable, or otherwise acquiring or disposing of Shares in the Fund. These consequences will vary in accordance with the law and practice currently in force in a Shareholder's country of citizenship, residence, domicile or incorporation and with his personal circumstances. Shareholders non-residents of Luxembourg but in another member state of the European Union may fall under the provisions of the EU Savings Directive.

Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming or otherwise disposing of Shares under the laws of their country of citizenship, residence, domicile or incorporation.

13.3 Foreign account tax compliance

As of 1 July 2014, payments of U.S. source income (such as dividends and interest) and, as of 1 January 2015, gross proceeds from the disposition of property that can produce dividends and interest and a portion of payments from certain non-U.S. entities may be subject to a new U.S. reporting and withholding tax regime. The FATCA rules are designed to require non-U.S. accounts and financial assets of U.S. persons and certain U.S. owned persons to be reported to the U.S. Internal Revenue Service (“**IRS**”). If the FATCA rules are not complied with, the payments become subject to a 30% withholding tax.

However, on 21 May 2013, the finance minister of Luxembourg announced that Luxembourg will enter into a Model 1 Intergovernmental agreement (“Model 1 Regime”) with the U.S. authorities.

Such Model 1 Regime should enable the Fund not to be subject to the 30% withholding tax on U.S. payments and to be subject to less stringent requirements. The Model 1 Regime requires the Fund not to register with the IRS and the gathering and reporting of the FATCA related information shall be done directly to Luxembourg authorities, which in their turn will exchange the relevant information with their U.S. counterparts.

If the Fund is unable to get the FATCA related required information from an investor, it may be forced to withhold on that investor's share of the relevant payments and may be required to forcibly redeem that investor's interest in the Fund. If the Fund does not comply with FATCA, income and gains might be materially impaired as they would be subject to the 30% withholding tax in certain circumstances. In any case, the Fund intends to become FATCA compliant.

Each investor should consult its own tax advisors regarding the application of FATCA to its own situation.

The information set out above is a summary of those tax issues which could arise in Luxembourg and does not purport to be a comprehensive analysis of the tax issues which could affect a prospective Investor. It is expected that Investors may be resident for tax purposes in many different countries. Consequently, no attempt is made in this OFFERING MEMORANDUM to summarise the tax consequences for each prospective Investor of subscribing, converting, holding, redeeming or otherwise acquiring or disposing of Shares in the Fund. These consequences will vary in accordance with the law and practice currently in force in an Investor's country of citizenship, residence, domicile or incorporation and with his/her/its personal circumstances.

13.4 Other jurisdictions

Interest, dividend and other income realised by the Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced. It is impossible to predict the rate of foreign tax the Fund will pay since the amount of the assets to be invested in various countries and the ability of the Fund to reduce such taxes is not known.

13.5 Future changes in applicable law

The foregoing description of Luxembourg tax consequences of an investment in, and the operations of, the Fund is based on laws and regulations which are subject to change through legislative, judicial or administrative action. Other legislation could be enacted that would subject the Fund to income taxes or subject Investors to increased income taxes.

THE TAX AND OTHER MATTERS DESCRIBED IN THIS ISSUING DOCUMENT DO NOT CONSTITUTE, AND SHOULD NOT BE CONSIDERED AS, LEGAL OR TAX ADVICE TO PROSPECTIVE INVESTORS. PROSPECTIVE INVESTORS SHOULD CONSULT THEIR OWN COUNSEL REGARDING TAX LAWS AND REGULATIONS OF ANY OTHER JURISDICTION WHICH MAY BE APPLICABLE TO THEM.

DESCRIPTION OF THE SUB-FUNDS

1. SWAN SICAV-SIF – SWAN BOND ENHANCED FUND

(the “Swan Bond Enhanced Fund”)

Investment Objective	<p>The investment objective of the Swan Bond Enhanced Fund is to achieve medium and long-term capital appreciation primarily through investment in a diversified portfolio of fixed income securities (bond, notes and credit derivatives, variable and floating-interest bonds traded on recognised markets worldwide).</p> <p>The Swan Bond Enhanced Fund will seek to carry out its objective by following the "Investment Policy" and "Investment Philosophy" set out below.</p>
Investment Policy	<p>The Swan Bond Enhanced Fund will invest globally in diversified fixed income bonds, international short, medium or long-term bonds, including zero-coupon bonds, fixed or variable-interest bonds, convertible bonds or bonds with warrants on transferable securities, indexed on bond indices or exchangeable against bonds and more generally in any transferable securities representing bond issues, without geographical, sector or rating limitation including credit derivatives. Derivatives may be used for both investment and hedging purposes.</p> <p>Investment in issues with a rating of less than BBB-/Baa3/BBB- as defined by S&P's/Moody's/Fitch or not rated may be made if they are deemed suitable by the Investment Manager.</p> <p>The Swan Bond Enhanced Fund is however permitted to invest in any bonds and securities denominated in any currency. The Swan Bond Enhanced Fund may also use exchange-traded or over-the-counter derivatives for hedging purposes use as well as for the purpose of optimizing the return of the portfolio.</p>
Investment Philosophy	<p>The investment selection for bonds is based on a combination between the top-down approach and the bottom-up one. First the Investment Manager defines the global and regional macroeconomic environment analysing monetary and fiscal policy, inflation and GDP growth in order to identify the future develop of the interest rate yield curve and sovereign risk premiums. An analysis of the main economic releases (such as jobless claims, unemployment rate, industrial production, retail sales, CPI, PPI, etc.) is made on a weekly basis, which analyses historical data and determines potential investment action. Then the research is focused on the credit cycle and the corporate profit cycle analysing default rates trends and the quality of global credit risk in order to calibrate the exposure to global credit markets. Finally, the resulting desired exposure is invested in a extremely diversified portfolio at the geographic, sector and single-issuer level, in order to abate any concentration risk; the selection of the securities is always driven by a careful analysis of the credit profile of the relevant issuers.</p>
Leverage and borrowings	<p>The Swan Bond Enhanced Fund will leverage its capital by borrowing. The maximum leverage involved by the borrowings of cash and the use of financial derivative instruments should in principle not exceed 300% of the net asset of the Fund.</p> <p>Consequently the maximum leverage calculated using the commitment method may in principle not exceed 400% of its net assets.</p> <p>Risk control is key to the Swan Bond Enhanced Fund's success and the measurement of risk is central to its disciplined investment philosophy.</p>

Performance Fees	<p>For both Share Classes in addition to the Management Fees, the Investment Manager shall be entitled to receive a performance related fee (the “Performance Fee”) from the Sub-Fund so that each Share Class is effectively charged a fee which equates precisely with that Share Class’ performance. This method of calculation ensures that (i) any Performance Fee paid to the Investment Manager is charged only to those Share Classes which have appreciated in value; (ii) all shareholders have the same amount of capital per Share Class at risk in the Fund; and (iii) shareholders have the same Net Asset Value per Share.</p> <p>The Performance Fee is payable annually in arrears in respect of each performance period. In the event that a shareholder redeems any Shares prior to the end of a Performance Period, any accrued but unpaid Performance Fee in respect of such Shares will be deducted from the redemption proceeds and paid to the Investment Manager promptly thereafter.</p> <p>The Performance Fee in respect of each Performance Period will be calculated by reference to the Net Asset Value per Share before the deduction of any accrued Performance Fees but after the deduction of accrued Management Fees and other expenses.</p>

Investment Manager of the Sub-Fund	<p>Swan Asset Management S.A., with registered office at Via L. Zuccoli 19, 6900 Lugano – Paradiso (Switzerland) has been appointed as Investment Manager of the Sub-Fund by virtue of an Agreement dated 27th of June 2014 The Investment Manager was founded in November 2008 in Lugano-Paradiso, Switzerland, and is a licensed Swiss asset management company. The Manager is authorised by the Swiss Financial Market Supervisory Authority (FINMA) to act as investment manager of collective investment schemes pursuant to art. 13 of the Federal Act on Collective Investment Schemes of June 23, 2006.</p> <p>Under the Investment Management Agreement, the Investment Manager has full discretion, subject to the control of and review by the Board of Directors, to invest the assets of the Swan Bond Enhanced Fund in a manner consistent with the investment objective, approach and restrictions described in this OFFERING MEMORANDUM.</p>
Prime Broker	<p>BNP PARIBAS, a company incorporated under the laws of France, whose registered office is at 16 boulevard des Italiens, 75009 Paris, France, acting through its London branch located at 10 Harewood Avenue, London, NW1 6AA ("BNP Paribas"), has been appointed 09 February 2015 as prime broker of the Sub-Fund by virtue of a prime brokerage agreement dated 09 February 2015.</p> <p>Pursuant to a sub-custody services agreement entered into between the Depositary Bank, the Fund, the Management Company and BNP Paribas (the "Custody Services Agreement"), the Depositary Bank has appointed BNP Paribas in accordance with Article 19 (11) of the AIFM Law to provide custody services with respect to some Financial Instruments of the Fund and to act therefore as the Depositary Bank's delegate. In accordance with article 19 (13) of the AIFM Law, the AIFM Regulation and the Custody Services Agreement, the Depositary Bank has transferred its liability to BNP Paribas with respect to the loss of Fund's Financial Instruments held in custody by BNP Paribas or BNP Paribas' delegates (the "BNP Sub-Delegates"). Therefore, the Depositary Bank is discharged of its liability under the first and second sub-paragraphs (but excluding the third sub-paragraph) of Article 19(12) of the AIFM Law in relation to such loss</p>

construed, for the avoidance of doubt, in accordance with Article 100 of the AIFM Regulation (the "**Discharge of Liability**"). Accordingly, the Fund, the Management Company acting on behalf of the Fund, or the Depositary Bank acting on their behalf, may make a claim against BNP Paribas for the loss of the Fund's Financial Instruments (held in custody by BNP Paribas or BNP Sub-Delegates). Therefore, the Depositary Bank shall have no liability in respect of the loss of the Fund's Financial Instruments (held in custody by BNP Paribas or BNP Sub-Delegates), as the Depositary Bank has discharged itself of such liability and such Discharge of Liability has been accepted by BNP Paribas.

The appointment by the Depositary Bank of BNP Paribas as its delegate in respect of the custody of the Fund's Financial Instruments and the Discharge of Liability, in each case is at the express direction of the Fund and the Management Company for and on behalf of the Fund, for the purposes of facilitating the provision of financing or other prime brokerage services by BNP Paribas to the Fund in order to assist the Management Company in achieving the investment objectives and policies of the Fund and such direction constitutes the objective reason for the delegation to BNP Paribas of the custody functions and the Discharge of Liability regarding the loss of the Fund's Financial Instruments, as required by articles 19(11)(b) and 19 (13) (c) of the AIFM Law, respectively.

The Financial Instruments of the Fund will be segregated from Financial Instruments held for any other client, any of the Depositary Bank's own Financial Instruments and any of BNP Paribas' own Financial Instruments and should therefore be unavailable to creditors of BNP Paribas.

BNP Paribas may also hold the Financial Instruments and other assets of the Fund with a BNP Sub-Delegate, including affiliated companies of BNP Paribas or a person connected with BNP Paribas. BNP Paribas will require that any BNP Sub-Delegate appointed by it will identify in its books and records that the Financial Instruments belong to the Fund or BNP Paribas' customers so that it is readily apparent that such Financial Instruments do not belong to BNP Paribas and should therefore be unavailable to creditors of BNP Paribas. The Financial Instruments of the Fund may then be held with a BNP Sub-Delegate in an omnibus account that is identified as belonging to customers of BNP Paribas. BNP Paribas will exercise all due skill, care and diligence in the selection of any such BNP Sub-Delegate and will be responsible for the duration of any sub-custody agreement for satisfying itself as to the ongoing suitability of such BNP Sub-Delegate, for the maintenance of an appropriate level of supervision over such BNP Sub-Delegate and for confirming by means of appropriate periodic enquiries that the obligations of such BNP Sub-Delegate continue to be competently discharged.

Any cash held or received for the Fund by or on behalf of BNP Paribas may be held with BNP Paribas as credit institution or banker and not as trustee and as a result will not be subject to any client money protections. Accordingly, the Fund's cash will not be segregated from the cash of BNP Paribas and such cash may be used by BNP Paribas in the course of its investment business and the Fund will rank as a general creditor of BNP Paribas in the event of BNP Paribas' insolvency.

The Swan Long Short Credit Fund may also use derivatives exchange-traded or over-the-counter for hedging purposes use as well as for the purpose of optimising the return of the portfolio.</p>
Investment Philosophy	<p>The investment selection for bonds is based on an active top down process. First the Investment Manager defines the macroeconomic environment analysing monetary and fiscal policy, inflation and GDP growth in order to identify the future development of the interest rate yield curve. An analysis of the main economic releases (such as jobless claims, unemployment rate, industrial production, retail sales, CPI, PPI, etc.) is made on a weekly basis, which analyses historical data and determines potential investment action. Then the research is focused on the credit cycle and the corporate profit cycle analysing default swap trend and the quality of global credit risk in order to balance the exposure to government and corporate bonds.</p> <p>The Investment Philosophy is primarily devoted to the identification of medium and long term market trends and the implementation of related strategic investments, but short term trading activity based on daily news flow is allowed, subject to tight risk controls.</p> <p>Risk control, in general, is key to the Swan Long Short Credit Fund's success and the measurement of risk is central to its disciplined investment philosophy.</p>
Leverage and borrowings	<p>Where deemed appropriate the Swan Long Short Credit Fund may leverage its capital by borrowing.</p> <p>Consequently the maximum leverage calculated using the commitment method may in principle not exceed 300% of its net assets.</p>

	<p>BNP Paribas with respect to the loss of Fund's Financial Instruments held in custody by BNP Paribas or BNP Paribas' delegates (the "BNP Sub-Delegates") . Therefore, the Depositary Bank is discharged of its liability under the first and second sub-paragraphs (but excluding the third sub-paragraph) of Article 19(12) of the AIFM Law in relation to such loss construed, for the avoidance of doubt, in accordance with Article 100 of the AIFM Regulation (the "Discharge of Liability"). Accordingly, the Fund, the Management Company acting on behalf of the Fund, or the Depositary Bank acting on their behalf, may make a claim against BNP Paribas for the loss of the Fund's Financial Instruments (held in custody by BNP Paribas or BNP Sub-Delegates). Therefore, the Depositary Bank shall have no liability in respect of the loss of the Fund's Financial Instruments (held in custody by BNP Paribas or BNP Sub-Delegates), as the Depositary Bank has discharged itself of such liability and such Discharge of Liability has been accepted by BNP Paribas.</p> <p>The appointment by the Depositary Bank of BNP Paribas as its delegate in respect of the custody of the Fund's Financial Instruments and the Discharge of Liability, in each case is at the express direction of the Fund and the Management Company for and on behalf of the Fund, for the purposes of facilitating the provision of financing or other prime brokerage services by BNP Paribas to the Fund in order to assist the Management Company in achieving the investment objectives and policies of the Fund and such direction constitutes the objective reason for the delegation to BNP Paribas of the custody functions and the Discharge of Liability regarding the loss of the Fund's Financial Instruments, as required by articles 19(11)(b) and 19 (13) (c) of the AIFM Law, respectively.</p> <p>As custodian, BNP Paribas will identify in its books and record the Financial Instruments of the Fund held by it as custodian in such a manner that the Financial Instruments of the Fund shall be at any time and without delay identifiable as belonging to, and held for the benefit of, the Fund. The Financial Instruments of the Fund will be segregated from Financial Instruments held for any other client, any of the Depositary Bank's own Financial Instruments and any of BNP Paribas' own Financial Instruments and should therefore be unavailable to creditors of BNP Paribas.</p> <p>BNP Paribas may also hold the Financial Instruments and other assets of the Fund with a BNP Sub-Delegate, including affiliated companies of BNP Paribas or a person connected with BNP Paribas. BNP Paribas will require that any BNP Sub-Delegate appointed by it will identify in its books and records that the Financial Instruments belong to the Fund or BNP Paribas' customers so that it is readily apparent that such Financial Instruments do not belong to BNP Paribas and should therefore be unavailable to creditors of BNP Paribas. The Financial Instruments of the Fund may then be held with a BNP Sub-Delegate in an omnibus account that is identified as belonging to customers of BNP Paribas. BNP Paribas will exercise all due skill, care and diligence in the selection of any such BNP Sub-Delegate and will be responsible for the duration of any sub-custody agreement for satisfying itself as to the ongoing suitability of such BNP Sub-Delegate, for the maintenance of an appropriate level of supervision over such BNP Sub-Delegate and for confirming by means of appropriate periodic enquiries that the obligations of such BNP Sub-Delegate continue to be competently discharged.</p> <p>Any cash held or received for the Fund by or on behalf of BNP Paribas may be held with BNP Paribas as credit institution or banker and not as trustee and as a result will not be subject to any client money protections. 5. SWAN SICAV-SIF –Swan Dynamic Fund
(the “**SWAN - DYNAMIC FUND**”)

Investment Objective	<p>The Investment objective of the Sub-Fund is long term capital appreciation, primarily through investments following the principle of risk diversification, the security of the capital invested and the liquidity of the assets, by actively managing the allocation of investments among different asset classes and taking advantage of prevailing market conditions.</p> <p>The Sub-Fund will seek to carry out its objective by following the “investment Policy” set out below</p>
Investment Policy	<p>The Sub-Fund will actively combine bottom up stock selection with top down asset allocation and a diversified risk exposure process. Main sources of value creation: securities selection (predominantly stock picking, but bond picking is also possible), tactical asset allocation (macroeconomic analysis and relative value analysis among different asset classes and markets), flexible investment approach, which actively varies the risk exposure on the investable asset classes</p>
Investment Philosophy	<p>The Investment Philosophy of the Sub-Fund is based on three main pillars:</p> <ol style="list-style-type: none"> 1) Stock picking (with a predominant focus on European & North American names), 2) Flexible beta exposure (both on long and short side, mainly with futures and options on the most common and liquid equity indexes), 3) Risk diversification overlay (by gaining exposure on de-correlated assets such as government securities and related derivative instruments, commodities and currencies, gold and precious metals...) in order to benefit both from cyclical trends and to protect capital in adverse market conditions. <p>Investments may be directed to securities of a single country, sectors and currency. Investments are selected on the basis of the Investment Manager’s expectations on mid-long term economic, market developments.</p> <p>The Investment Manager aims to invest in equities and equity-type securities, including investments via units and/or shares of ETF and UCIs, as well as investments in structured products, notes, certificates and financial derivative instruments. Equity selection will be done using bottom up stock picking with a macro and sector or theme overlay. To achieve this objective the Investment Manager shall carry through a profound selection process by applying fundamental, technical, sector and theme analyses as well as quantitative screening. The analysis aims to select equity investments of companies with good underlying economic fundamentals (typically stocks with superior return on invested capital trading at reasonable prices or at discount vs. peers) or companies for which a substantial improvement in their economic performance is expected. The Investment Manager may as well sell short securities that are, in the view of the Manager, fully valued, relatively expensive vs. peers or their history and/or not in line with the market from a fundamental point of view, or that have a questionable business model and management; such short sales may be done both as a hedge/diversification tool against other long investments and as a standalone investment decision. The single issuer exposure of the Sub-Fund shall be less than 20% of the Sub-Fund’s total net asset</p>

	<p>To preserve capital in adverse market condition and to exploit other diversification opportunities, the Investment Manager shall hedge part or all the invested portfolio with derivatives instruments traded on an exchange or a regulated market or OTC, including but not limited to total return swaps, credit default swaps, options, futures, forwards, puts and calls. The Sub-Fund shall enter into futures and forward contracts as well as into swap agreements and buy and write options on all the above reported type of investments and asset classes, as well as on any currency and or indexes relating to them. In so doing the Investment Manager will pursue both the flexibility of its investment approach and the macro diversification overlay.</p> <p>Macro diversification overlay is achieved through an extensive macroeconomic and market analysis, both from an active bottom-up and top-down approach: the Investment Manager identifies the main macroeconomic trends by analysing monetary and fiscal policies, inflation and GDP growth of the main countries, in order to identify the future developments for interest rates, bonds, currencies and commodities. To this purpose the Investment Manager will also monitor the performance of the main asset classes (rates, bonds, commodities and currencies) to find investable trading opportunities. The analysis is therefore conducted both from a macroeconomic and from a technical point of view. The fund may engage in active currency allocation. The investments may be made directly or indirectly via collective investment schemes, including Exchange-traded funds (ETFs) and other UCIs.</p> <p>The Sub-Fund may use all available portfolio techniques, including short sales. The fund may at any time hold liquid assets or money market instruments in such currencies in which investments are made or in which the redemption price is paid out.</p>
Leverage and borrowings	<p>The use of derivatives may result in the Sub-Fund's total exposure exceeding its net assets. The aggregate derivative-related exposure may not exceed 100% of the Sub-Fund's total net assets.</p> <p>Aggregate total exposure of the Sub-Fund may thus not exceed 200% of the Sub-Fund's total net assets.</p> <p>If the possibility of temporary borrowing (in an amount not exceeding 10% of net assets) is factored in, the aggregate figure for maximum exposure using the commitment method may rise to 210% of the Sub-Fund's net fund assets.</p>
